

MIRRAH NASHIHIN BINTI ABDUL RAUF

mirrahrauf24@gmail.com • 011-20897574 • Pasir Gudang, Johor

Expected Computer Science undergraduate (Computer Network Security specialization) student who will complete his studies in 2027. Plans to start working in the field of cybersecurity, mainly in SOC analyst and DFIR analyst positions. Has an analytical mind and eye for details gained through coursework and technical training. Desires to get internship experience in cybersecurity.

EDUCATION

Universiti Sultan Zainal Abidin (UniSZA), Besut Campus, Terengganu

2023-2027

Bachelor of Computer Science (Computer Network Security) with Honours

CGPA: 3.44/4.00

Relevant Coursework

Network Security

TCP/IP and Computer Networking

Linux System Administration

Incident Response

Network Traffic Analysis (Wireshark)

Digital Forensics

Security Monitoring & Threat Detection

Sekolah Menengah Kebangsaan Pasir Gudang 2, Johor

2021 – 2023

Sijil Tinggi Persekolahan Malaysia (STPM)

CERTIFICATIONS

-
- **CCNA: Switching, Routing, and Wireless Essentials (SRWE)**
Cisco Networking Academy | Jul 2025
 - **Getting Started with Cisco Packet Tracer**
Cisco Networking Academy | Jun 2025
 - **Computer Networking Course**
Networking fundamentals, network configuration and practical networking concepts | Nov 2025
 - **CompTIA SecurityX (In Progress) | Expected 2026**

PROJECTS & CYBERSECURITY EXPERIENCE

Intelligent Detection of Social Engineering Exploitation in Email (Final Year Project)

2026 - Present

- Developed a machine learning-based system to detect social engineering and phishing-related email threats.
- Performed data preprocessing, feature extraction, and model evaluation.
- Applied cybersecurity concepts related to email security and threat detection

Networking & Security Lab Practice

2024 – Present

- Conducted network traffic analysis using Wireshark.
- Configured and tested network environments using Cisco Packet Tracer.
- Applied TCP/IP networking concepts and troubleshooting techniques.

Cybersecurity Learning & SOC Fundamentals

2025 – Present

- Studied SOC operations, incident response, and threat detection methodologies.
- Practiced Linux administration and security monitoring tasks.
- Enhanced cybersecurity knowledge through hands-on labs and self-learning.

Hospital Noise Level Monitoring System (IoT Project)

2026

- Developed an IoT-based noise monitoring system for hospital environments to measure and monitor ambient noise levels in real-time.
- Analyzed sensor data through graphical visualization to support noise management and improve patient comfort.

LEADERSHIP & EXTRACURRICULAR ACTIVITIES

TINKERCAD Workshop

November 2025

Registration & Certificate Committee Member

- Managed participant registration and attendance records during the workshop.
- Assisted in preparing and distributing certificates to participants.
- Coordinated with organizing committee members to ensure smooth event operations.
- Demonstrated organizational, communication, and teamwork skills.

From Zero to Hero Program

January 2024

Food & Beverage Committee Member

- Coordinated food and beverage arrangements for participants and organizing committee members.
- Assisted in event logistics and operational planning.
- Worked collaboratively with committee members to ensure successful program execution.
- Developed time management and teamwork skills in a fast-paced environment.

SKILLS

TECHNICAL SKILLS

- Network Security
- TCP/IP Networking
- Linux Administration
- Wireshark
- Cisco Networking
- Python
- Java
- Basic Penetration Testing

SOFT SKILLS

- Teamwork
- Communication
- Problem Solving
- Time Management
- Leadership
- Adaptability
- Analytical Thinking
- Attention to Detail
